

Cost Analysis					
Scenario: A hospital in Ibadan stores 60TB of MRI scans that must be kept for 7 years.					
Storage Class	\$/GB/month	Monthly Cost (60TB)	Annual Cost	Savings vs S3 Standard	Savings %
S3 Standard	\$0.023	\$1,380.00	\$16,560.00	\$0	0%
S3 Standard-IA	\$0.0125	\$750.00	\$9,000.00	\$7,560.00	45.65%
Glacier Instant Retrieval	\$0.004	\$240.00	\$2,880.00	\$13,680.00	82.61%
Glacier Flexible Retrieval	\$0.0036	\$216.00	\$2,592.00	\$13,968.00	84.35%
Lifecycle Rule (Blended 7-Year Avg)	~\$0.006	~\$360.00	~\$4,320.00	~\$12,240.00	~73.91%
Storage Class	Minimum Storage Duration	Retrieval Time	Best Use Case		
S3 Standard	None	Instant	Frequently accessed data		
S3 Standard-IA	30 days	Instant	Infrequently accessed backups		
S3 One Zone-IA	30 days	Instant	Non-critical, infrequently accessed data		
Glacier Instant Retrieval	90 days	Milliseconds	Archive data needing fast access		
Glacier Flexible Retrieval	90 days	Minutes to hours	Long-term archives		
Glacier Deep Archive	180 days	Hours	Compliance and long-term retention		
Note: If you delete a Glacier object before 90 days, AWS still charges you for the full 90-day minimum storage duration.
